Travaux du vendredi 22 novembre 2024

A large grid table showing departure and arrival times for various RER A lines (R, C, D, G, L, N) on Friday, November 22, 2024. Each cell in the grid contains a specific time value, indicating the schedule for each direction and station. The table is organized into columns representing different lines and rows representing specific stations and services.

A second large grid table, similar to the first, showing the detailed hourly schedule for RER A services. This table includes more frequent time intervals and covers the same range of stations and lines. It provides a more granular view of the train's departure and arrival times throughout the day.

A third large grid table, continuing the schedule information. This table likely represents a continuation of the hourly or half-hourly service patterns for different parts of the network or specific peak/off-peak times.
